**This fund is not a deposit or guarantee of principal.
The fund may not receive the expected principal and return.
If an issuer or The bank in which the fund invests cannot repay the principal and interest.**

Information about the investment goals of ES-GOVCP1Y2

The target rate of return is approximately 1.75% per annum on the initial investment (in Thai Baht)

Mechanisms aimed at preserving principal: Investors can study projected returns as follows:

The instruments the fund expects to invest*	Credit rating of Issue / issuer	Proportion to fund size	Yield from investment instruments (per annum)	Estimated receipt of <u>principal</u> + <u>The return</u> received from the investment in Thai baht (per year) at the maturity date of the project.
Treasury Bills / Thai Government Bonds / Bank of Thailand Bonds	Thai Government **	100%	1.95%	101.95%
Total		100%		101.95%
			Estimated Fund Expenses	0.20%
			Estimated receipt of <u>principal</u> + <u>The return</u> received from the investment	101.75%

* The expected investment instruments may be changed to other instruments as the management company deems appropriate which may consider investing in other instruments instead and/or in addition to the instruments listed above.

** .The highest credit rating in Thailand

Remark

- 1.Data of expected return proposed by the issuers or the sellers is as of 22 May 2023
- 2.Instruments and/or investment ratios may change according to market conditions or the fund manager's discretion.They may consider investing in other instruments instead and/or in addition to those stated above and/or instruments under the investment framework of eastspring. If the instrument is a floating interest rate. The fund is hedged at a fixed interest rate
- 3.The fund may not receive the expected principal and return.If an issuer or The bank in which the fund invests cannot repay the principal and interest.
- 4.Investors cannot redeem this investment unit during 1 years.
- 5.Fund cost estimates are subject to change.and expenses of the fund (administration fee included) can be changed as appropriate.In the case where the rate of return of the Fund after deduction of expenses is higher than the average annual rate of

return for auto-redemption that is notified during the IPO period, the Management Company reserves the right to collect higher fee than the initially estimated rates but not exceeding the maximum rates as specified in the Fund's Prospectus.

6. The Management Company shall exercise discretion in changing assets for investment or investment proportion when the action is taken as necessary and appropriate in the best interest of the investors, provided that the total risk profile of the assets for investment shall not materially change.

7. In the event of market irregularities or in the event that changes in market conditions or market forecasts make offshore investments unsuitable for practice or any other cases caused by uncontrollable causes such as changes in politics, law, economy, financial markets, interest rates tax law tax law and enforcement of regulations on foreign exchange control and the entry and exit of investments or other laws or regulations, etc., which may cause the Fund to not be able to proceed in accordance with the details specified by the Fund Project for example, the life of the fund project may need to be extended beyond the specified project life span or affects the investment value and the return does not meet the estimated rate of return target.

8. If the investment cannot be made as required due to changing market conditions or the structure/tax rates related to investment in instruments have changed significantly. Unitholders may not receive returns at the advertised rate and/or the Management Company may not automatically redeem the investment units at the advertised rate.
