Fund Description

The Global Bond Fund is a diverse, actively managed portfolio of global fixed-income securities. The average duration of the fund will normally vary within +/-3 years of the benchmark. The fund invests primarily in a diversified portfolio of investment grade bonds denominated in major world currencies.

The fund offers the potential for more efficient returns through a diversified regional and sector exposure.

The fund's extensive global opportunity set can offer diversified sources of returns, benefiting from the manager's views on interest rates, currencies, credit and country trends.

The Fund may use or invest in financial derivatives.

About the Benchmark

Bloomberg Global Aggregate (USD Hedged) Index provides a broad-based measure of the global investment-grade fixed income markets. The three major components of this index are the U.S. Aggregate, the Pan-European Aggregate, and the Asian-Pacific Aggregate Indices. The index also includes Eurodollar and Euro-Yen corporate bonds, Canadian Government securities, and USD investment grade 144A securities. It is not possible to invest directly in an unmanaged index.

Unless otherwise stated in the prospectus, the Fund is not managed against a particular benchmark or index, and any reference to a particular benchmark or index in this factsheet is made solely for risk or performance comparison purposes.

The Funds typically offer different share classes, which are subject to different fees and expenses (which may affect performance), have different minimum investment requirements and are entitled to different services. In an environment where interest rates may trend upward, rising rates will negatively impact most bond funds, and fixed income securities held by a fund are likely to decrease in value. Bond funds and individual bonds with a longer duration (a measure of the expected life of a security) tend to be more sensitive to changes in interest rates, usually making them more volatile than securities with shorter durations.
